REQUEST FOR OVERRIDE for HPHY COURSE REGISTRATION

Please read the following before completing the form.

An override is needed when course pre-reqs are met, but not evident on the Degree Guide. For example, a P* earned for AP credit will not appear to clear the graded requirement for pre-reqs. Students who have NOT met pre-reqs must complete a 'Request for Exception' form.

Name ___________________________________________ Date _____________________________

ID# ___________________________________________ E-mail ____________________________

Course ___________________________ crn# _________________ Lab crn# _________________

Course ___________________________ crn# _________________ Lab crn# _________________

Rationale for why an override is needed

P* ___________________________________________

C- earned prior to Fall 2014 ___________________________________________

Transfer course not articulating correctly ___________________________________________

Other ___________________________________________
